10. Feedback Summary:

1. Donor Feedback

- Majority of donors expressed a positive and fulfilling experience.
- Appreciated the well-organized process, cleanliness, and supportive medical staff.
- Many first-time donors felt motivated to donate regularly in the future.
- Suggestions included more awareness campaigns and additional donation drives in nearby communities.

2. Student Volunteer Feedback

- Student volunteers shared a sense of responsibility and pride in contributing to a social cause.
- The event helped in enhancing communication, organizational, and leadership skills.
- Volunteers suggested incorporating a pre-camp awareness week for even greater participation.

3. Faculty & Staff Feedback

- Faculty appreciated the active participation of students and the camp's alignment with the institute's healthcare values.
- Acknowledged the educational value of the event in shaping socially responsible physiotherapists.

4. Blood Bank Organization Feedback

- Commended the institute for providing excellent logistical support and a safe environment.
- Impressed by the enthusiasm and discipline of students and staff.
- Expressed interest in future collaborations for similar initiatives.

11. Conclusion & Acknowledgment:

Conclusion

The blood donation camp organized by Neotech Institute of Physiotherapy was a resounding success, achieving its objective of creating awareness and collecting blood to support individuals affected by Thalassemia and Sickle Cell Anaemia.

Acknowledgment

We extend our heartfelt gratitude to:

- All blood donors for their generous contribution.
- The students and faculty members for their active participation and volunteer support.
- Our collaborating blood bank/NGO partners for their professional guidance and medical support.
- The management and administrative staff of Neotech Institute of Physiotherapy for providing all necessary resources and ensuring smooth execution of the event.
- Special thanks to the awareness team and medical speakers who educated attendees on the significance of blood donation in the lives of Thalassemia and Sickle Cell Anaemia patients.
